

Precedent[®] and Odyssey[™] with Symbio[®] 700 Controls Training

DATE: Tuesday,
September 10, 2024

TIME: 9 AM - 12 PM (CST)

Hunton Training Room
10555 Westpark Dr. 77042

Learn how Symbio 700 can simplify your job by attending our free, in-person training event. You'll learn how to successfully implement and troubleshoot Trane Precedent Rooftop Units and Odyssey Split Systems that utilize Symbio 700 controls.

Refreshments will be provided. PDH: 3 Hours

Please RSVP by September 4, 2024.

Key Learning Objectives:

- Initiate startup and commission the unit via Service Test Mode with the Symbio Mobile App
- Demonstrate unit configuration using model number, product literature, and the Symbio Mobile App
- Apply proper techniques for startup and service
- Interpret electrical wiring schematics for Symbio 700 controls
- Identify system components that make up the Symbio 700 control platform
- Live Q & A with our technical training team

Please note: This course does not cover legacy Precedent or Voyager[®] rooftop units with ReliaTel[™] controls.
